

It's National Tree Day in your Patch Sunday 28 July

Come and help us plant trees in Red Gum Reserve

Golden Plains Shire has committed funds and manpower to extend and restore this precious remnant of Plains Grassy Woodland with its ancient River Red Gums. These woodlands were once widespread across the plains around Batesford. Work includes weed eradication, an ecological burn and revegetation. This will extend the flora and fauna corridors between the Moorabool River Reserve, the Dog Rocks Flora and Fauna Sanctuary and the Dog Rocks Reserve. Volunteers from the BFS Landcare Group assist with managing the Reserve.

The BFS Landcare Group needs man, woman and child power, so please join us on National Tree Day, Sunday 28 July, from 9.00 am to 12 noon.

There'll be homemade cakes for morning tea and plants to take home for your own garden.
Don't forget to bring gloves and tools.

Let's know if you can make it on 5276 1497, or helenkpercy@yahoo.com.au
